DESIGN OF THE SCHOOL.

THE Legislature, by an act passed May 16, 1870, made instruction in drawing obligatory in the public day schools, and required cities and towns containing more than ten thousand inhabitants to make provisions for free instruction in industrial drawing to persons over fifteen years of age. It was soon found impossible to realize satisfactorily the benefits intended by this act, for want of competent teachers. A resolve was therefore passed by the Legislature in 1873 providing for the establishment of a State Normal Art School.

Its purpose is to train teachers and supervisors of industrial art. To this end it provides advanced courses in free-hand and instrumental drawing, painting and modeling, and their applications to industry.

"That the visitors of the several normal schools be authorized and directed to provide for a physical examination of candidates for admission to the normal schools, in order to determine whether they are free from any disease or infirmity which would unfit them for the office of teacher, and also to examine any student at any time in the course, to determine whether his physical condition is such as to warrant his continuance in the school."
